Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Monday 11 Oct 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Some sunshine in the south tomorrow, cloudier elsewhere.

This Evening and Tonight:
Many areas rather cloudy, especially in the north, with cloud thick enough for outbreaks of rain and drizzle over parts of Scotland and northern England. Some clear spells further south  with fog patches likely over Wales and southern England.

Tuesday:
Rather cloudy for many, cloud thick enough for patchy rain over Scotland, Northern Ireland,  northwest Wales and northern and eastern England. Further south, dry and brighter with some sunny spells.

Outlook for Wednesday to Friday:
Largely dry in the south with patchy morning fog and bright or sunny spells. Rain and stronger winds at times in the north and temporarily turning colder here on Friday.
